

EXTENDED DAY CAB

HIGH-VALUE • REAL-WORLD • SOLUTIONS

Here's a smart investment that pays big dividends to anybody who spends a full day in a truck.

For any operation that requires a maximum of work and storage space, Kenworth's Extended Day Cab can be a perfect choice. Available on the T600, T800 and W900, this option is well suited for regional haul and vocational customers who would prefer a little more room than most conventional cabs offer. The Extended Day Cab option adds six inches of length and five inches of height to a standard Kenworth day cab. The bonus: A lot more head, leg and belly room; additional seat adjustment space; reclinable seating for increased off-duty comfort; 2 plus cubic feet of additional storage; and a more productive, satisfied crew.

Talk about versatility! With Kenworth's new Extended Day Cab conversion kit, owners of T600, T800 and W900 AeroCab sleepers can now quickly and easily convert their vehicles into rugged day cabs for the resale market.

Driving in a day cab has never offered this much comfort: added room behind the wheel and a full 21 degrees of reclinable seating. Plus, the crew gains over two cubic feet of additional storage space with an easily accessible rear wall storage unit – ideal for personal gear, safety equipment and recordkeeping materials.

Note: Photography and illustrations in this brochure may depict optional equipment. Equipment and specifications shown in this brochure are subject to change without notice. Consult with your Kenworth dealer at time of ordering for standard and optional equipment.
