On your left are two shelves which come in handy to hold a shaving kit, some books, or a portable T.V. We've even given you a 12-volt cigar lighter here too.

On your right is a full-size closet complete with a separate light.

The bunk measures a comfortable 6' 5" x 3' and includes a notched bunk

rail so you can sit down comfortably while facing the entrance.

At the foot of the bunk is an additional storage area, and at the head of the bunk, on the rear wall, are controls for the sleeper's radio speakers, heater/air-conditioner, plus two auxiliary lights.

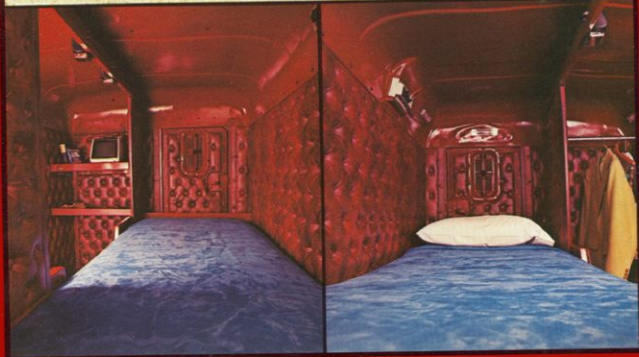

There are two side entrance doors, complete with air vents, one at each end of the bunk.

And all around you on the sleeper

walls is luxurious diamond-tufted upholstery with accent buttons. Again, in your choice of eight colors (single or any two in combination).

Of course, there's wall-to-wall nylon carpeting on the sleeper floor which is easily removable for cleaning.

Underneath the sleeper, running the full width of the box, is yet another baggage compartment with outside lockable doors on both sides.
