

DEFINING TOMORROW

T609

● T609

With its sleek new aerodynamic styling and improved driving environment, the T609 continues to provide you with the power to haul the biggest payloads, efficiently and in total comfort. The T609 is primarily suited to on-highway application and offers a range of engine options up to 615 peak horsepower, with excellent cooling capacity and all the in cab luxuries. The T609 is well suited to multiple trailer combinations including B-Double and road trains. The T609 stands out for outright versatility and road presence.

● ADR 80/03 - THE NEW AUSTRALIAN EMISSIONS STANDARD

For the T609 the emission solution employed to meet ADR 80/03 in the 2011 model range powered by Cummins ISX and Signature engines is cooled Exhaust Gas Recirculation (EGR).

Kenworth is introducing a Cummins Particulate Filter as part of the engine package. The Cummins Particulate Filter, which replaces the existing vehicle muffler, reduces particulate emissions by 90% from ADR80/02 is designed to last the life of the engine.

Kenworth's application engineering process has delivered an optimised solution that integrates EGR seamlessly across the high horsepower engine options. So as well as being highly efficient and low maintenance the EGR emission solution has little or no impact on payload and efficiency. Kenworth customers get the emission compliance they need with the proven performance and reliability of engines they know and trust – all with the back up of our renowned local design and manufacturing capability and Australia wide support network.

● EBSS - ELECTRONIC BRAKE SAFETY SYSTEM

At Kenworth, safety has always been a paramount consideration, and we continue to invest heavily in developing a safer working environment for road transport operators and other road users. All 2011 new model Kenworth's are available with the latest Kenworth EBSS Safety Package. EBSS incorporates a variety of safety features including ABS, Drag Torque Control, Traction Control and ESP.

Kenworth EBSS has been designed to provide a class leading and reliable system for Australasia's unique road conditions and applications, and deliver better peace of mind for all road users. To learn more about these safety systems visit www.kenworth.com.au
