

Titan by Mack®

Its chrome grabs attention. Its power commands respect.

The all-new Titan by Mack is a colossal feat of engineering. This massive truck features a 605-horsepower, MP10 engine — Mack's largest ever. Its torque ratings are in a stratosphere all their own. And its bold, chrome styling expresses the pride of Mack while lifting the spirits of every trucker that saddles up behind the wheel. Designed specifically for the heavy transport market, Titan is ideal for logging, oil field, heavy equipment and severe, heavy-haul applications.

Heavyweight power.

Under its long-nose hood, Titan features a standard 16-liter MP10 engine that packs up to 605 horses. This bold addition to the proven Mack MP™ Engine Series boasts a best-in-class torque rating of 2,060 ft.-lbs. at 1,200 RPMs. Titan shines in special-permit, heavy-haul assignments as it delivers the spine-tingling power and eye-popping performance needed to tackle the toughest jobs on the planet.

- The MP10 is available in 515-, 565- and 605-horsepower models, and comes in the MaxiCruise® engine family for premium performance in heavy transport applications.
- Using an advanced combustion system, the MP10 engine combines sophisticated software, intelligent fuel injectors and improved air management systems to achieve exceptional fuel economy.
- It features 30,000-mile oil drain intervals and convenient access points for hassle-free servicing.
- The MP10 meets strict US'07 emissions requirements.
- A high-capacity cooling package is standard on Titan to ensure the MP10 provides optimal performance under load.
- The Mack PowerLeash™ engine brake delivers an impressive 575 braking horsepower at 2,100 RPMs. And with its near-instantaneous braking, its responsiveness gives drivers confidence behind the wheel.

Royal treatment.

Starting with its classy button tuck interior, the Titan cab features a luxurious work environment. From its smart-designed, wraparound dash to pedals mounted in-line and suspended above the cab floor, the whole Titan interior is built for the driver so there's no stretching and less fatigue during operation. And thanks to its imposing stature, Titan provides drivers an elevated seat position for improved visibility of the world around them.

- The instrument cluster features large, easy-to-read displays and gauges to help keep drivers focused on the road.
- The available Lectronix T7000 navigational radio integrates entertainment, navigation, a blind spot camera display and vehicle, trip and tire-pressure monitoring systems.
- Mack's Co-Pilot™ display, which utilizes a four-button steering-column stalk, comes standard. This system gives drivers 50 screens that feature real-time fuel economy and trip data, detailed maintenance and fault summaries, and supplemental sensor readings.
- The road-tested V-MAC® IV advanced electronics system has over a hundred programmable features to better manage the truck.
- The clutch pedal is air-assist and positioned lower to help drivers work more productively.
- By simply pressing a foot pedal, the steering column can be adjusted to an infinite number of positions to place the steering wheel exactly where you want it for maximum comfort, increased belly room and improved visibility of all gauges.
- Lighting controls can be accessed from the ground to facilitate pre-trip inspections.
- The galvanized-steel cab dramatically reduces noise and vibration for a smooth, quiet ride.
- The cab has plenty of convenient overhead storage bins and enhanced, four-point lighting.
- The dash comes nicely appointed in two finishes — woodgrain or brushed nickel.

Knockout style.

The goal was to create a truck with stylish features every bit as commanding as Titan is powerful. And to that we say — mission accomplished. Titan proudly displays a dominant chrome grille surround and impressive, one-of-a-kind dual air intakes and filters to complement its sleek lines and long hood. Titan exhibits all the best qualities you expect from Mack, and is bound to draw awe-inspiring stares at every turn.

- The chrome sun visor is available in a standard or 13-inch-deep extended option.
- The high-capacity cooling package is a standard offering on Titan.
- The massive four-inch-wide chrome metal grille surround is pure attitude, and the new design allows for improved airflow.
- The fog lights dress up the grille.
- The LEXAN® headlight covers are impact resistant and offer easy accessibility for replacing bulbs.
- The Titan bumper is available with a center tow pin.
- The chrome eyebrow on the wheel wells is durable and helps protect the hood.
- Titan features bright-finish, dual-vertical stacks with seven-inch chrome Bullhorns.
- Titan is accented by quad trumpet air horns with snow shields.
- The beautifully designed air intakes are a perfect combination of elegant design and enhanced functionality.
- The standard LED cab skirt lighting is stylish, provides improved visibility when entering and exiting the cab, and is available with custom engraving for a personal touch.
- The Mack Cap DPF is hidden with a stylized stainless steel cover.
- Sitting higher for maximum ground clearance, the Mack *Cornerstone*™ chassis has been enhanced for Titan and is available with a partial or full 5 mm inside channel.
