## Granite Trim Levels

The all-new Mack Granite has a surprisingly comfortable interior for a truck as tough and ruggedly built as this workhorse. In designing the interior of the Granite, we set out to create a sanctuary for drivers by blocking out the noise they encounter on a daily basis. From the finish on the dash to the style of the steering wheel and a trio of optional trim levels, we worked hard to create an array of choices that fit your style. So whether you prefer Purebred, Pedigree or Champion, we have an interior designed to match your personality.
