

TITAN

When it's time to bring out the big guns, the Titan is ready with the goods.

The biggest and boldest in the Mack Trucks lineup has been overhauled from the ground up.

Designed to handle up to 200 tonnes GCM with a 53 tonnes GVM capability, this big boy cranks up the high-end horsepower and optimum grunt that multiple trailer and extra-heavy haulage work needs.

Take it all and take it far with 600Hp of Cummins engine that sits behind a big chrome plated grin and chews up the biggest loads and toughest roads.

Wheel base length is optional and can be changed to suit specific applications.
